

**FORD GETS BUT ONE HOUR AT TESTIFYING**

themselves to kill and, as you have stated, are murderers. What them is the difference between a professional soldier and an anarchist?" "The soldier might be an anarchist."

Arguments and Reading of Magazine Articles Take Up Much Time at Hearing In Mount Clemens.

**FAILS TO MAKE ADMISSION**

Attorney Does Not Succeed in Getting Manufacturer to Say Mexican situation Akin to Anarchy.

**MOUNT CLEMENS, Mich., July 21.**—With arguments of counsel which resulted in a ruling by Judge Cooper cutting off debate for another session and the reading of a deposition by John Reed, attorney for Weller, Henry Ford spent his only one hour on the witness stand yesterday.

The witness called the Chicago trial for \$3,000,000 on a libel charge, disclosed no clues or leads general from those expressed last week.

The manufacturer was interrogated by Attorney Elmer G. Stevenson, who sought for the Tribune, while Alvin Tresselt, Lueking and Alfred C. Murphy maintained their accusations of objections. The slim reply of argument over objections was adopted as a means of speeding up the trial, the record of which now stands at \$1,300,000.

In his brilliant cross-examination of the witness that he had remained an anarchist as one who knew him, and endeavored to get Mr. Ford to admit that the anarchy along the Mexican border in which he opposed mobilization of the national guard, was in fact anarchistic. In this the lawyer did not succeed.

"I suppose that you recognize, Mr. Ford, that in Mexico in 1910, there was anarchy; no government, that we attempt to protect the interests of our people?" asked Mr. Stevenson.

"There was trouble," replied the witness.

Texas Session Ends.

**AUSTIN, Texas, July 21.**—With a session tonight the Texas house cleared its agenda of bills and the senate also completed its work today. All appropriation measures have been passed by both houses, and with the exception of acting on free conference committee reports and resolutions, the work of the second-called session of the thirty-sixth legislature, which adjourns tomorrow, is completed.

**Reinstate Strikers.**

WASHINGTON, July 21.—Officials of the Cleveland telephone company, in a meeting yesterday, Chairman Kouns of the wire control board and a committee of the Cleveland city council, agreed to reinstate employees who have been on strike and who have not been guilty of certain acts.

"You know that factions were fighting down there continuously and that peaceable people fled in fear of their lives,"

"I don't know that."

"Well, I suppose you would say that a man who undertook to maintain anarchy would be an anarchist, wouldn't you?"

"I don't know just what you have referred to."

"You will recognize that raids and anti-motting carried this anarchy to the American side before the national guard went down there."

"There was a condition of trouble, certainly. I don't know whether it was anarchy or not."

"What is the difference between anarchy and the kind of trouble you speak of?"

"I don't know what the difference is."

"Haven't you any kind of an idea as to what anarchy is?"

"I kind of have an idea that an anarchist is one who throws bombs and sticks against the government."

"An anarchist throws bombs to kill and who is a murderer?"

"Yes."

"And professional soldiers prepare

for battle, but in a way that would be unprofitable to Chicago's history. Never before as far as can be learned, has any aircraft fallen accidentally in the heart of a city.

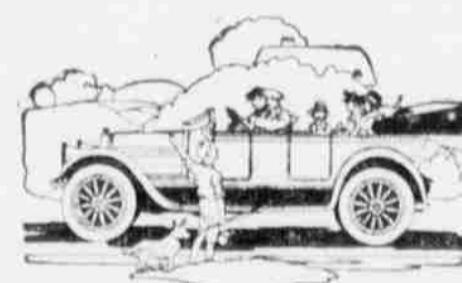

The fact that the blazing debris fell on the tank building probably saved lives, as the streets were thronged with late afternoon shoppers and clerks and other employees, on Friday afternoon, when the lightning struck.

## TEN PERSONS DIE IN AIRSHIP FALL

hundreds of employees at the institution of the coming tragedy. A shadow of the marble, roundabout, where the accident happened and a crash took place. The bank had been built for portions not passed by the tracks were still at work in various departments.

It seemed, according to the survivors, that the entire bank was on fire. Breaking through the iron supports holding the glass overhead, the baggage of the balloon, with two heavy rotary engines, and several gasoline tanks smashed to the floor.

Instantly the bank exploded, scattering a wave of smoke over the workers for a radius of 50 feet. A panic ensued. There were only two exits through which they could leave the fire cage which surrounded the restaurant.

**Fight Their Way Out.**

Men and girls, with clothing afire fought their way through the exits, still on the second floor, screaming to the windows and severely jumping to the street. In all the time the marble rotunda, where bodies were burned under the mud and debris, who crawled away from the smoldering fire, their clothes burning.

The intense heat made escape work difficult until after the fire department arrived on a 4-10 alarm call. It was 20 minutes before the bodies were removed. The fire chief told me about Number 40 for the blood," and I purchased a bottle from my mother, Mrs. Walter Peacock, and I did not know exactly what it kept in it, taking it, using in all his activities. Today I am feeling fine and do not hesitate to recommend it for any trouble for which it is recommended.

Meanwhile tumultuous from every hospital and undertaking establishment near the center of the city came, and the police threw suspicion about the place. Boxes were found to have been more or less cut in the shower of glass which preceded the explosion.

**Lives Are Saved.**

Bodies snatched when the balloon fell were unprecedented in Chicago's history. Never before so far as can be learned, has any aircraft fallen accidentally in the heart of a city.

The fact that the blazing debris fell on the tank building probably saved lives, as the streets were thronged with late afternoon shoppers and clerks and other employees, on Friday afternoon, when the lightning struck.
